A Novel Approach to Chart Analysis

**Taking a Leaf out of Jaimini and subjecting it to
Parashari Principles for uncanny insights**

by Vinay Aditya

In this seminar we will be working on Padas which form an integral part of Jaimini Astrology. The Pada of a house is as many houses away from its lord as is the lord from the house.

Arudha is also a word used for Padas. It means the Simhasana (the Throne) which one sits on. The Pada is like the driver who is in-charge of the vehicle.

In Jaimini, the Pada is considered the alternative and authentic house carrying all the significations of the house of which it is the Pada.

We will venture into the use of Padas, subjecting them to common Parashari principles, in place of the usual Jaimini principles.

The participant in this seminar needs to have no prior knowledge, taste or fondness for Jaimini Astrology. Our approach is interesting and juicy enough in the Parashari ways and provides insights into a horoscope with a different and profound point of view.
